The video format

0 TO 5 SEC

You, looking shocked at the camera. The hook sits on screen as a caption in the upper third the whole time.

5 TO 13 SEC

Screen recording of GetYour9. Show the feature named in the hook's tag, from start to result.

LAST 2 SEC

End on the payoff: the band score, the criteria breakdown, or the flagged sentence.

How to write the caption

1

Keep it short enough to read twice while your face is on screen: about 12 words or fewer.

2

Write it like a text to a friend: lowercase, casual, extra question marks are fine.

3

Your face carries the hook. Shocked, stressed or disbelieving, never smiling at the camera.

4

Every hook promises something. The demo after it has to show exactly that thing.

5

Tags on each hook: Task 1, Task 2, AI examiner, Speaking (feedback), or Any feature.

Keep it honest

1

Band scores from GetYour9 are estimates. Never promise a specific band or a guaranteed result.

2

Record your real answers and your real feedback. Do not stage results.

3

GetYour9 is not the official IELTS test. Do not say it is.

4

Disclose the partnership: add #ad or use the platform's paid-partnership label.

Just found this
